LAVENDER LACE 466 Nice light lavender with cream throat. Nice frilling of florets on a nice whippy stem. Has performed fine under very poor weather conditions.

MAJESTIC 532 Exceptionally tall straight growing variety. Huge scarlet florets with up to 8 open. A show winner, but must be planted early here to hit the shows.

MERRIE AUSSIECAN 432 This is about the same color and shade as Spic & Span, however, will bloom two weeks earlier. A light blending blotch adds a bit more dash of life than Spic. Opens 8 on a well balanced spike, florets slightly ruffled. Excellent health habits. We consider this one of our very best commercials.

MRS. A. P. BARTLE 442 A row of Bartle is as uniform as a row of soldiers. A little deeper pink than the old Coryphee. Will open 8. We like this one very much.

PATROL 416 Light apricot. Will open 10 on an exceptionally long spike. A show winner

RED WING 436 Very popular in deep scarlets. Exceptionally long flower heads. Excellent growing habits. Fine commercial and demand has been very heavy on this one.

SKYWAY 440 Fine early, tall, clear pink shading to lighter throat. This variety took it under the worst growing conditions this past season ever recorded in the N.W.

STRATHNAVER 500 Another variety that can stand wet growing weather. Opens as high as 8 huge pure which florets on a strong sturdy spike.

STRAWBERRY PEACH 517 The softness of the orange-pink with scarlet feathering, along with the nice ruffling, makes this one of the prettiest Glads we grow.

SUNKIST 423 Very tall growing pink-apricot. Opens up to 12 on a nice straight spike. Have won show championship spike with this, but it must be planted early.

WASHINGTON STATE CUSTOMERS - If bulbs are not purchased for RESALE or CUT FLOWER SALE BE SURE TO ADD THE REQUIRED 3% STATE SALES TAX.

Effective May 21, 1954 the I.C.C. granted a special commodity rate on the shipment of Gladiolus Bulbs being shipped out of Washington, Oregon and Idaho, via Railway Express. This rate is a reduction of APPROXIMATELY 25% on shipments of 100 lbs. Your local Express Agent should be able to provide you with the approximate cost of shipments to your locality by referring to I.C.C. No. 7992 Effective as of May 21, 1954. We find in shipping bulbs, where the weight of the shipment exceeds 9 - 11 lbs., it is just as cheap, better handling and much easier to make claims for damage with full coverage on insurance up to \$50.00 without the cost of additional insurance, via Express. Parcel Post does not insure your shipment against freezing.

We wish to thank our many customers for their fine letters, showing their appreciation of the fine bulbs they received and the manner in which their orders have been handled, also the fine results they have had from growing our bulbs. Growing bulbs, as one grower recently commented is not exactly what one could call, "A Symphony of Roses". There are many times, no doubt, when the average Gladiolus bulb grower thinks, "There must be an easier way of making a living than this". However, when he reads of the happiness and joy he has helped to create, that in itself is no doubt more lucrative than all the monetary value he sometimes thinks he is being deprived of.

PACIFIC INTERNATIONAL GLADIOLUS EXHIBITION EVERETT, WASHINGTON AUGUST 20 - 21, 1955

This year the Pacific Northwest Gladiolus Society will be host to the PACIFIC INTERNATIONAL GLADIOLUS EXHIBITION, sponsored by the North American Gladiolus Council. This will be, to our knowledge, after the growing and showing of Gladiolus in the immediate locality for the past 27 years, the most spectacular Flower Exhibition ever offered the flower and garden enthusiasts residing north of Seattle. Everett, with its many flower and garden societies, can well afford to feel proud that this locality was selected by the Nat'l Executive Committee for this magnificent Exhibit of summers most widely grown and popular flower, the Gladiolus.

Why not mark your calendar, save the date, and make it a 'must' to attend this most colorful display of summers beauty. Better still, if you can, plan on entering your prize winning blooms of Gladiolus. The Pacific Northwest Gladiolus Show committee will be pleased to help and advise with your entries at show time.
